T.R.A.C.K.—Tire, Rim And Chassis Knowledge

T.R.A.C.K.™ Auto Training is poised to be the premier tire, rim and chassis training center in the US. It is a 20-year dream of owner and founder, Scott Blair, a Tire Industry Association Certified Instructor, author of the T.R.A.C.K.™ Advanced Tire and Custom Wheel training program, inventor of the Wheel Fit® and GRYPR System®, Co-founder of 2U Tire®, owner of 2U Mobile Solutions and host of T.R.A.C.K.™ Auto Network.

For decades, the tire industry has relegated tire changing to non-trained, entry-level positions. As vehicles become increasingly complex, they aren’t so much a vehicle as a rolling computer. For our industry to survive, we need a talent pool of qualified techs, salespeople and managers who are fully versed in how these systems are connected and interact. Sign up now for a class based on your needs and become the premier tire and auto service company that your customers expect. Contact us at 251-309-2500 and ask for Tire and Wheel Certification.
